ASSIGNEE is the exclusive owner of the '961 APPLICATION and the '018 APPLICATION. ASSIGNEE disclaims the terminal part of any patent granted on the '961 APPLICATION which would extend beyond the last day of the full statutory term of the '018 APPLICATION.

Further, ASSIGNEE agrees that any patent granted on the '961 APPLICATION shall be enforceable only for and during the period that the legal title to the patent granted on the '961 APPLICATION shall be the same as the legal title to the '018 APPLICATION and agrees that this Terminal Disclaimer shall run with any patent granted on the '961 APPLICATION and shall be binding on the grantee or its successors or assigns.

In making the above disclaimer, ASSIGNEE does not disclaim the terminal part of any patent granted on the '961 APPLICATION that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 to 156 and 173 of the '018 APPLICATION, as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

This disclaimer is directed to patents issuing from the indicated '961 APPLICATION only and is not intended to act as a disclaimer of any part of the statutory term of any patent issuing from a divisional or continuation application that claims priority to either the '961 APPLICATION or to use the term of such a patent issuing from a divisional or continuation application in calculating the term of the present '961 APPLICATION.

The assignment documents evidencing title referred to above have been reviewed by the undersigned, and it is certified that title is in the ASSIGNEE.
